

Find Parking

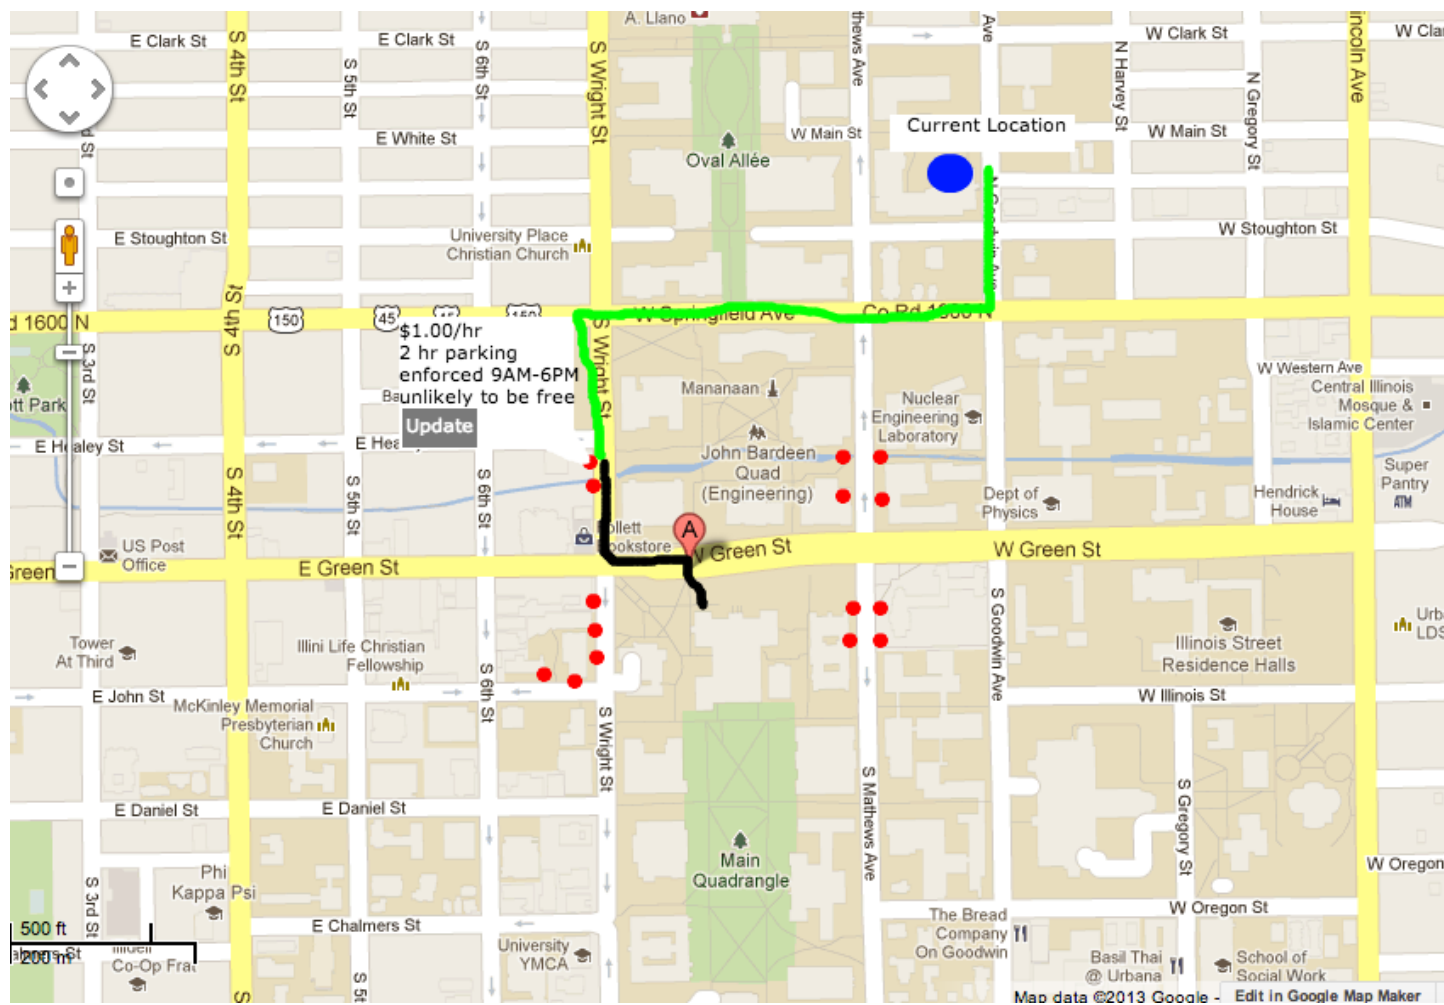

Destination

Go

After entering a destination, shows map centered on that point (A)

Clicking on a parking meter (red dot) draws a driving route from current location to that meter, a walking route from that meter to the destination, and displays meter information

Clicking update brings you to this page, where you can update meter data to reflect errors, changes, or that it is more busy.

Meter Data

Price	<input type="text"/>
Time Limit	<input type="text"/>
Enforcement Start	<input type="text"/>
Enforcement End	<input type="text"/>
Congestion (1-10)	<input type="text"/>
